

Western Reserve Local School District Supplement not Supplant Methodology

The U.S. Department of Education requires school districts to choose a methodology for meeting the Title I, Part A Supplement not Supplant requirements. Under the ESSA, the Western Reserve Local School District must demonstrate that the methodology used to allocate State and local funds to the schools receiving assistance under Title I, Part A ensures that the school receives all of the State and local funds it would otherwise receive if it were not receiving Title I, Part A assistance. Western Reserve must demonstrate that there is no consideration to whether a school receives Title I assistance or not when allocating State and local funds.

Methodology of Distribution of Funds

Distribution of State and local (non-federal) resources will be based on staffing and supply needs in the Western Reserve Local School District.
